

Interested to come and WATCH and/or PARTICIPATE to the workshop 'Thinking Space' organised by the international colleagues from our partner university Escola Superior de Disseny de Valencia (EASD), Spain?

Our students will be participating in this workshop, but you're free to come watch whenever you have room in your schedule.

The aim of this workshop consists of the manipulation of space contained in a box. Breaking preconceptions about space treatment (floor, walls, ceiling). Investigate different ways of intervening in interior spaces, based on different starting assumptions. Explore the boundaries of the division of spaces. Explore techniques to introduce emotion aspects to interior spaces. Experiment with the possibilities that AI offers us, but always working from our own design and ideas.

Location : Campus Lucas Faydherbe, Zandpoortvest 26, 2800 Mechelen

Date : Wednesday 20 March 2024 between 09.30 and 16.00 hours.

- No problem at all to watch only part of the workshop.
[Please register here!](#) Choose EEN PLEK RESERVEREN and kindly type GUEST after your last name.
- Would you like to participate to the FULL workshop, the interior, design & architecture unit will provide the necessary materials for you.
[Please register here!](#) Choose EEN PLEK RESERVEREN and kindly type PARTICIPANT after your last name.
